Let me hear a simple song
 Come right out of your heart
 Just the sound of your soul
 Is what I want to hear

You don't need a million notes
 Just an easy melody
 And a story
 anyone can understand

Your life has a sound
 A whisper or just a sigh
 The sound of your days
 As they go by

Feeling blue in the morning
 And smiling in the afternoon
 Isn't that what our music
 Is all about ?

Let me hear a simple song
 Of our nights and our days
 The simple song of time
 The song of life
